

**In the matter of: Sean Thibodeaux**  
**License #291224**  
**D.O.B. 07/28/1987**

This cause having come to be heard upon the complaint filed herein, the evidence and testimony entered before the presiding hearing officer on August 25, 2016. The nature of the hearing was prosecution of the matter.

The following witness was called to testify on behalf of the board:

- Winford Amos, LPC, LAC, CCS, Administrator, Kingdom Source

The respondent was present and did give sworn testimony.

There were no witnesses called to testify on behalf of the respondent.

During the formal hearing process, the following findings of fact and conclusions were confirmed based on the entire record:

#### **FINDINGS OF FACT**

1. The respondent was issued a license to practice practical nursing in the state of Louisiana on November 12, 2009.
2. The respondent self-reported to the board that on or about January 10, 2014, he had been arrested and charged with a DWI. He entered into a voluntary intervention program for first time offenders and after completing the program, his charges were dismissed/refused on March 28, 2016.
3. The board requested and received a copy of the respondent's court ordered evaluation performed by Winford Amos, LPC at Kingdom Source Counseling and Training Center. According to the evaluation, the respondent reported a history of drinking regularly and heavily for one year. According to Mr. Amos, moderate alcohol use was the respondent's most significant substance abuse problem. Mr. Amos reported that the respondent was not interested in treatment for his alcohol related problems. It was noted that during the evaluation, the respondent exhibited inconsistent follow-through and showed minimal awareness of his need for intervention. He reported that the respondent initially refused to complete screening because he believed it was an admission of guilt. It was noted that there was moderate relapse potential.

The results of the respondent's Substance Abuse Questionnaire assessment indicated that he exhibited severe problems on the following scales: Truthfulness, Alcohol, Drug, Marijuana, Substance Use Disorder and Driver Risk. Recommendations for severe scores on the above scales would warrant intensive outpatient treatment or medically managed intensive inpatient treatment. Additionally, it was reported that the respondent failed a drug screen on February 10, 2016, for alcohol. Due to the positive drug screen, he was required to attend individual sessions, perform additional community service and pay a fine. The respondent denied consuming alcohol and stated that the positive results may be due to his job duties that require him to work with isopropyl alcohol on a daily basis or that he drank alcohol during a Catholic Mass on Ash Wednesday.

According to the respondent's assessment and the sworn testimony of Mr. Winford Amos, LPC the respondent's court ordered assessment was in the 98% on the truthfulness scale and was considered to be inaccurate/invalid. Mr. Amos testified to the fact that a score between a 70 to 90 or above, would suggest the person is not being truthful and the results of the test cannot be used to make any type of determination. (Refer to Exhibit D2-D7 and hearing transcript pg. 15 line 20 through pg. 16 line 13). Mr. Amos testified that in his professional opinion, without a more thorough exam directed strictly at impaired professionals and close monitoring, he would not recommend that the respondent practice as a nurse. (Refer to hearing transcript pg. 26 lines 21-25).

4. The board received copies of the respondent's drug screen results while he participated in the Pretrial Intervention Program. According to the results, Ethyl Glucuronide (alcohol) was detected in his system on 6/1/15, and 2/10/16. (Refer to Exhibit F6 and F11) Additionally, amphetamines were detected in his system on the following dates: 6/29/15; 10/23/15; 1/22/16; 2/10/16; 3/14/16; and 3/24/16. He provided prescriptions for Adderall. (Refer to Exhibits K14-K20)

The hearing officer finds that the respondent is in denial regarding his alcohol use/abuse. He tested positive for alcohol on two drug screens while participating in the P.T.I. program and admitted during the hearing to drinking alcohol prior to attending the session on June 1, 2015. When asked how he arrived at the session on June 1, 2015, he indicated that he drove himself, again drinking while driving. When questioned, he minimized the severity of his actions and didn't see it as a problem. (Refer to Exhibit F6 and sworn testimony pg. 44 line 22 through pg. 45 line 17).

**JURISDICTION**

The board has jurisdiction over the parties hereto and the subject matter hereof.

**CONCLUSIONS OF LAW**
